

# WORKSHOPS FOR PHDS & POSTDOCS

EMPOWERING DOCTORAL CANDIDATES AND POSTDOCS TO EXPLORE THEIR ENTREPRENEURIAL POTENTIAL AND DRIVING CULTURAL CHANGE TOWARDS INNOVATION AND ENTREPRENEURSHIP IN ACADEMIA.

## What we do

YES offers a unique opportunity for researchers, bringing them closer to start-up concepts and fostering interdisciplinary connections and collaboration. Through engaging workshops and interactive sessions, YES playfully instills creative methods and an entrepreneurial mindset, empowering participants to explore entrepreneurial opportunities.

## How we do it

- A variety of workshop formats for growing entrepreneurship skills
- Nationwide network facilitating interdisciplinary collaboration and knowledge transfer
- Professional design and high-quality events enhancing participant experience
- Focus on long-term impact and sustainability, through the perspective of Sciencepreneurship
- English program to reach a diverse audience of scientists and researchers

## For whom

Young Entrepreneurs in Science strengthens the network between universities, research institutes, and corporations. The partners of our program can position themselves as leaders of innovation as well as promote career perspectives to highly qualified specialists in their region. With our unique and highly skilled community, they can facilitate knowledge transfer in various levels. Additionally, we offer a train-the-trainer-program and award the “Young Entrepreneurs in Science Campus Certificate” for their outstanding commitment to our common objective.

## What we value

Every year in Germany, 30.000 highly qualified researchers complete their doctorates in Germany, but the academic environment often lacks a culture of entrepreneurship. There is a need to bridge the gap between academic expertise and entrepreneurship skills, fostering a mindset shift towards innovation and initiative.

## What we have accomplished
