YES Workshop – From Research to Sciencepreneur

What does GOe FUTURE provide

Awareness

Creating awareness about the different pathways to translate their ideas into viable solutions and business opportunities.

Connect the ecosystem

Leveraging the know-how and strengths of the ecosystem to provide the right support at every stage of the journey.

Matchmaking

Bringing together the right people to build strong teams and establish strategic partnerships.

Access to expert Know-How

Providing access to experienced experts and specialized know-how to support teams and startups.

Complementary Programs

Providing programs that build on existing formats of the ecosystem and address emerging needs for teams and startups.

Our Program portfolio

Five pillars create a clear pathway from idea to established company – connecting targeted programs with existing ecosystem formats.
